Q6 - Please offer any comments that would be useful in future planning in terms of factors that were most/least beneficial to you.

Please offer any comments that would be useful in future planning in terms...

we need though to have some time set aside in the meetings to discuss concerns, brainstorm, and share ideas. This should be open forum time set aside; not just at the end of the meeting While I like the location, it is about as far as one can get in state--we should alternate sites every other year and find something in North Ga and then South Ga

would like for more statewide topics to be discussed. Would like time for strategic planning

Return to K&P. Excellent venue that seems to treat us well.

Beautiful venue- would go back

Excellent meeting. Can we offer CEs in the future for presentations such as Jodi's or Teresa Gore's? These presentations were excellent and should have had CEs attached. I am more than willing for help with that process through the GNA offices, thanks, Dina Hewett.

Dr. Gore's presentation was excellent but 2 hours is too long, especially without a break. There needs to be more brief breaks. Sitting from 1045-2:00 and 1130-2:30 is just too long. The room was too cold.

More practical information on 2nd day- 1st day nice to know and most of it was helpful to understand application

This was my first time attending and I was impressed. Some of the topics would not be relevant to everyone (such as those with online programs) but many of the sessions did stimulate some ideas to take back to my school. All the speakers were of great quality. I enjoyed meeting my colleagues from across the state.

Presenters to speak more to leadership role--such as sim--how to cost various aspects, advance the topic of interest, convince campus leadership, how to seek other funding, etc..

Good job. Love that there were some CNEs. More please.

Would have been helpful to receive CEUs for some of these activities. Just a thought.

The organization meetings tend to go off topic and can be distracting. The venue was the best I've ever attended for these conferences. Please please have the summer retreats here...it's a wonderful break!

Always a great place, love the K& P. Enjoyed the variety of topics.

Q7 - Please identify future retreat topics you would like to see included at the summer

AACON/GANDD retreat.

Please identify future retreat topics you would like to see included at the...

as above, dedicated time (perhaps we can ask folks to ID topics) to place on the agenda so that we can share ideas,

Time to identify strategic directions and priorities National strategies to deal with faculty shortages

Something related to the role of the Dean/Director, such as succession planning; dealing with faculty who are disengaged, trouble makers, not participating in departmental life; dealing with the use of technology, such as increase in online and hybrid courses, and faculty working from home

More on politics related to nursing issues- perhaps a legislator to speak such as Senator Unterman

Teaching and retention strategies for generation Z Nursing salaries by rank, experience and institutional classification -- anecdotally, presidents and provosts tend to not "value" nursing faculty compared to other professions (e.g. business, math & science).

Leadership development topics, such as facilitating change and managing conflict. So many of us have undergone major changes and managing faculty/staff who deal with change so differently is a challenge. Maybe something on motivating faculty and understanding how to facilitate people/teams function effectively. I was expecting leadership topics more than teaching topics with an organization of directors, chairs, and deans.

competency-based education

Offering break out sessions for smaller and larger schools. We have different concerns and needs and sometimes one side feels excluded from the table.
